Kennedy Mine Has Crack Ball Team
Kennedy baseball team made quite a record this year as a strong team, losing 1 game out of 5. They played two games with Jackson Gate, one with the Zeila, one at Amador, and one with Sutter Hill, losing the Zeila game by one run. The club received their new suits this week, and play their first game in them at Amador next Sunday. The team is composed of the following players:
Catcher, Al. Raggio, pitcher, McNeill manager; 1b, S. N. Walker; 2b., Joe Raggio 3 b., Rob Wilson ss., E. V. Luma rf., J. Flaherty cf., John Raggio lf., Barry extra, John Villa extra Roy Whitehead.
A benefit ball will be given at Love's hall for the benefit of the team next month.
Compare this Paper with other county sheets and see how much more county news we give than the others for \$2.00

JACKSON CITY ITEMS
Local Happenings About Amador's County Seat
Isador Goldner came up from San Francisco last Sunday, on a week's visit to his relatives, more particularly to see his sick brother, Alfred. Isador has been employed by the Pacific Hardware Company for the past five years. He will return to the city next Sunday.
Chas Reynolds has rented the old Constitution saloon opposite the Court house, and intends opening for business as soon as arrangements can be made for permits and license.
Mrs G. Cinocchio, Mrs B. Gilbert, and Mrs Bergin are attending the grand parlor of N. D. G. W. in Santa Barbara this week, as delegates for Ursula parlor No. 1.
At the grand parlor of Native Sons held at Lake Tahoe last week, Clarence Jarvis, of this county was elected third vice president, thereby placing him within a few steps of the grand presidency. Judge John F. Davis of Excelsior parlor was elected a grand trustee.
Miss Oda Ginocchio is under treatment in San Francisco for impaired hearing under the care of specialists.
A play is scheduled in Love's hall next month for the benefit of the Methodist Episcopal church, entitled, "The Right of Might," by local talent.
Continued on Page 5

Candidate for Sheriff
George Lucot, the blacksmith of Jackson, announces in this issue that he is a candidate for the democratic nomination for sheriff. There had been rumors for the past two weeks, that he would be likely to complete with the present incumbent of U. S. Gregory, for the nomination, being urged to this course by many influential members for his party. He is strongly of the opinion that he can win out, and is determined to do all in his power to do so. This move has seriously disconcerted the machine element of the party, but nevertheless it has the substantial backing of the rank and file. Against Lucot's qualifications for the office nothing can be urged, and we do not believe any other aspirant named has any advantage over him in this respect.

ESCAPES DEATH
Miner's Life Saved by Skip Tender
M. Spremo a, miner while at work on the 3100 level in the Kennedy mine, met with an accident last Tuesday evening that came near costing him his life. The miner was clearing rock into a chute when he accidentally slipped into the chute, and a mass of loose rock slid in on top of him almost completely covering him. The skip-tender Charles Cook, is given credit for saving the victims life. He hurriedly opened the shut trap door, allowing the unfortunate man and the mass of rock to slide into the skip, and then helped him out safely into the drift.
Dr. Gall was called, and attended the victim, who was a mass of bruises and cuts from his head to his heels.

Local Water Matters Agitated
Mrs Richtmyer has ordered a new pipe to be placed across the north fork of Jackson creek, and some distance over each side. This portion of the main pipe has given much trouble of late. Several breaks have occurred and the old pipe seems unequal to withstand the pressure, as this is the lowest point along the line, and therefore subject to the greatest pressure. The pipe has been ordered, and is expected here every day.
Last month the minimum rate for domestic use for family was raised to \$2. Heretofore a number were paying under this rate, but it was decided to make this the lowest charge. There was of course some outcry at the inauguration of the new rating. It is pointed out that this is the minimum charge in other places, and that at the price which the local company pays for water, it cannot be furnished at less cost, without involving a loss.

Jackson Merchant's Health Improving
William Tam, the Jackson merchant, is still in San Francisco under medical treatment for inflammatory rheumatism and gout. He reports that he feels much better, and is uncertain when he will return. He may take a course of treatment at one of the mineral springs before he returns.

RATTO MARRIED
Miss Stella McGary Weds Popular Liveryman
Miss Stella McGary and Joseph Ratto, too of Jackson's most popular young people left for Oakland last Tuesday morning to be married.
The ceremony was performed Thursday, and the bride and groom started their honeymoon which will last about two weeks.
Mrs Ratto is the daughter of Mr and Mrs Matthew McGary, proprietors of the large dry goods store of that name in Jackson, and Mr Ratto is a member of the livery firm of Green & Ratto.
Preparations have been made by both parties for some time past, for the coming event that would make them man and wife, and a home completely furnished was fixed up exactly to their own taste, before they left Jackson for their new adventure.
The bride tressau was prepared by her mother, the wedding dress being white point de spray trimmed in lace. The Ledger extends to the newly wedded couple its hearty congratulations, and wishes them a bon voyage.

Marchant for Assessor
We are pleased to announce that John Marchant of Lone, a present secretary at the Preston school of industry, has consented to allow his name to go before the voters as a candidate for the republican candidate for assessor. His card to that effect appears in another column. He is just the man for this office, which he filled efficiently for several years. Few men in Amador county are better known or more deservedly popular with all classes than John Marchant. The gaps in the republican tickets are being filled up with exceptionally strong timber. There is every indication that when the issue is finally made up, the republican ticket will be found presenting an invincible front, with the finest material that has been offered to the voters for many years, and with the utmost harmony in the ranks, success for its nominees is almost a foregone conclusion.

Cigars for First Home Run
M. P. Silva, proprietor of the Elko Cigar Factory of Jackson, has arranged with the Jackson and Plymouth baseball teams to give to the first ball player who makes a home run at next Sunday's game, a box of his own make Elko cigars. Go out and watch the players swat at the ball

Republican Candidate for Governor in City
Phillip A. Stanton, of Los Angeles, speaker of the California assembly, and candidate for the republican nomination for governor, paid Jackson a visit on Wednesday, in a large Thomas flyer accompanied by Chas D. Stanton, Twinfield Hagaboon. They quartered at the National hotel, and were taken in charge by D. Gall, who escorted Stanton to the most prominent and influential republicans in the city.
Stanton's party came here from Sonora, stopping all town enroute. They left Thursday morning for Sutter Creek, and expect to thoroughly canvass the state for support at the coming primary.
Goes Away for Health
Frank Podesta, accompanied by his wife, left this week for San Francisco, for his health.
Head Cut Open By Rock
A miner named J. Mattusie, employed at the Kennedy mine, met with a very painful and dangerous accident on Wednesday last. Mattusie was working on the 3000 level when a large rock fell striking him on the head, causing a large gash near the forehead. Dr. Gall dressed the wound. The unfortunate miner suffered considerable pain from the accident, and will be laid off from work for some time.

PAPER GETS BAD BUMP
"Silly" a Poor Article at Explaining--Admits His Narrowness
The Dispatch in nearly two columns of stuff spread over his front page, endeavors in its usual feeble way to answer the charges contained in the Ledger of two weeks ago alleging unprofessional and patty tactics on the part of "silly Willie" and his abettors in regard to the printing patronage connected with the entertainments given recently for the benefit of the Episcopal church. We do not propose to follow the effusion in detail. It is none of our concern whether he has or has not employed solicitors, "windy" or otherwise to boost his business, nor whether he keeps one man or twenty men "busy doing nothing but job printing." The Dispatch is at liberty to employ skilled or unskilled labor, and pay "white man's" or black man's wages just as it suits him, or the democratic clique controlling him. Such questions are foreign to the issues raised. The vital point involved is that "silly Willie" entered into an unholy alliance with an equally "silly" stranger named Dennison, that in a series of entertainments gotten up for a supposedly holy cause, that his printing office should be given all the patronage pertaining to these entertainments. This brace of self-boosterers were primarily concerned with the stimulus these shows were likely to
Continued on Page 4

Drill Contest Planned
A drilling contest is planned by various squads of miners and will be one of the interesting features at the coming celebration at Sutter Creek on July 4th next. The ladies of the Maccabees are straining every effort to make their coming celebration a complete success, and as a paper, we trust all our readers will boost the event and as many as can attend and help create an Amador county social spirit that will equal any in the state.
Bower's orchestra has been engaged, the Sutter Creek and Amador band, base ball, grand confetti ball, and dancing all day are a few of the many interesting features which the various committees have prepared.

BASE BALL GOOD
Jackson Loses But Put Up Good Game
The game of ball played between the Wingards of Sacramento and the Jackson team last Sunday proved a bit one-sided, Jackson losing by a score of 11 to 2. There were several sensational plays made however on both sides. Myers of the local team made a catch in left field that was very difficult, because of his backward up-hill run. Buckingham, the Wingard pitcher, made a clean hit through center field in the fifth inning that brought him a safe home run
Cromer struck a ball over the willows in right field, and would have had a safe 3 bagger if a proper coach would have held him on third base, but enthusiastic rooters shouted home, and he tried for home and was put out.
Arditto pitched a fine game up to the third inning, and then gave out. Jackson had 2 other good pitchers, but Sockey was compelled to finish the game and from the 4th to the 7th was hit unmercifully. The last two innings, however, he finished strong.
Love was in the game with fist work, and young Kerr played a snappy game. Kerr was benched for an inning, but the team was glad to have him go back to his old stand. There is no question that he will develop into a crack 1910 player, and to bench him for an error seems a bit foolish.
Dick Fortner, who captains the Jackson team, uses good judgment, in his
Continued on Page 5

Dr. Goodman In Charge of Sprague's Patients
Dr. Fred F. Sprague, who is in Stockton taking care of the practice of one of the foremost practitioners of that city during his absence from the state, is kept busy all the time, and is giving satisfaction to all patrons. The doctor's practice in Jackson is being attended to in his absence by Dr. Goodman of Sutter Creek.

Maccabees will Hold Grand Dances
The ladies of the Maccabees of the world will give a grand ball on Saturday 11th, 18, and 25th of June, at the skating rink pavilion. The Sutter Creek band orchestra has been engaged, and a pleasant time will be promised all who attend. 3t.

A BAD RUNAWAY
Frightened Horse Injured Driver and Escort
Mrs W. R. Green, wife of W. R. Green of the Union livery stable, and Miss Ethel Green, a sister-in-law, met with a serious accident while out driving, near the Bardack ranch, about 3 miles out of Jackson last Tuesday afternoon.
The horse shied at a couple of pack donkeys, and in plunging around threw both women out of the light run about. Miss Green was thrown into a barbed wire fence and received severe cuts about her hands. Mrs Green was run over by the carriage, and the heel of her shoe completely torn off. She sustained a badly sprained ankle, and wrenched her knee, and as a result is confined to her bed at home. The horse kicked himself loose from the buggy, which was completely wrecked and was caught some time afterwards by a man named Benecevic at the Bardack ranch.
The horse escaped without a scratch, and no trace of a break could be found on the harness.

Supervisor Appointed
Governor Gillett has appointed L. H. Cook of Volcano as supervisor of district three to fill the vacancy caused by the death of A. Grillo. The appointee was recommended by the republican county central committee as having the endorsement of a heavy majority of the voters of that section. Mr Cook will qualify and take his seat at the next meeting of the supervisors. He will be the candidate of the republicans at the next election. There are two democratic aspirants in the field, W. Brown, and W. E. Deaver. It is understood that L. Burke is a candidate on the democratic side for reelection in township five. It was reported last year that he was satisfied to forego political honors in future if his brother was appointed as superintendent of the hospital. However, he now wants the job for another four years. No republican candidate has been mentioned so far in this district.

New Rector Is Tendered Reception
A reception was tendered the new Episcopal rector, Rev. John Edward Shea and wife, at the National hotel parlors last Saturday. The reception was planned and carried out by the ladies guild, and proved very enjoyable to the large crowd of united friends who attended. The parlor was beautifully decorated for the occasion, and Mrs E. Kay and daughter Thelma played and sang several selections. A luncheon was served and the guests then departed for their homes.
The ladies' guild of the Episcopal church have finished arrangements to have the church and patronage repainted. Other needed repairs will also be made to the church.

Entertainment Will Be Worth Seeing
The Native Daughters of the Golden West assisted by the L'Allegro tennis club of Jackson, are preparing an entertainment, which will be given on the 16th of July entitled, "Brown's in town." It is a comedy drama, and a very popular play. Mr Bierce, proprietor of the Komfort shoe store was instrumental in having the entertainment put into shape. Those who have been given parts are rehearsing regularly, and it is safe to say the show will be the best Jackson has yet seen for local talent.
Store Thanks Its Patrons
The Red Front is reporting a banner week for business. The store is a leading establishment, and deserves by reason of its fair business methods all the trade it receives.

MINE NEWS ALONG LODGE
Interesting Accounts of Mines Located In Amador Co.
Murphy's Gulch
W. Doyle and partners who are working a portion of the Amador Queen ground in Murphy's gulch recently shipped about a half ton of black metal to Selby's for treatment. The ore was taken from the hanging wall vein, which has not been worked to any great extent for pocket mining. The shipment was made as a test, to ascertain the value of such rock. This kind of metal is very deceiving as to its gold contents. The shipment yielded at the rate of \$80 per ton; which was rather under its estimated worth. The ore is found in small stringers of quartz, and it takes some time to gather together enough of it to make a shipment. It cannot be treated by mill process. The three partners in this undertaking are determined to go ahead with the claim.
Kennedy
This grand mine is moving along as prosperously as ever, with the outlook for the future very bright. A few days ago a bunch of exceptionally rich rock was taken from the 2800 level. It is reported that 38 sacks were taken out or about a ton of ore, all liberally freighted with gold. This character of ore is encountered in several levels, and is sacked in the presence of guards. At

Fixing up City Office
The city clerk has had the floor of his office covered with linoleum, making a decided improvement in the appearance of things. It is contemplated to have the trustees hold their regular meeting in this office. It is large enough to accommodate not only the members, but all spectators who desire to witness the proceedings. It is a handier meeting place than the supervisors room, and besides this, all the city records are here, which is also consideration of importance. But above all, it has the recommendation of economy. A saving in the rent of the supervisor's room of \$5 per month would be effected. This is not much, it is true, but it is worth saving especially when no sacrifice of efficiency would be thereby entailed.

SCHOOL CLOSED
Interesting Exercises at Session's End
Last Friday finished the public school term, and the occasion was fittingly celebrated in the Jackson schools by teachers and scholars. Special exercises were previously prepared by the different grades, and in the afternoon the various schools assembled in the third grade room taught by Mrs Caldwell and the program was delivered. Supt. Greenhalgh made a very interesting address at the conclusion of the exercises, and was followed by Mr Wylie, who is principal of the Jackson school. Supt. Greenhalgh urged the boys to make the very best of their opportunity of receiving a public school education. He told them of his trip to the convention of state school superintendents held recently in Southern California, principally told his school mates of the small per centage of scholars who are able to avail themselves of a high school education, and claiming reports show that about 15 out of every 100 reach the high school from Jackson, and that only 1 out of 15 enters college. This he said is a deplorable condition, as the lack of a high school blights the coming generations that are reared in this beautiful foothill city.
The following program was delivered by the first, second and third year grades:
Song by school, marching, recitation,

Magnificent Store Room
Vogeli, the popular jewelryman, who recently moved into his new quarters, 40 Main street, still continues in his improvements, and just finished a work shop department in the front part of his store room. This store is admired by all who pass, but one must step inside if he wishes to see a really beautiful storeroom and a magnificent line of goods prettily displayed, a real testimony of Jackson's rapid progress.

QUEER POLITICS.

An effort is being made through the press and otherwise by republican managers to induce democratic voters at the coming primary election to write the name of at least one republican candidate on the democratic ballot. It appears that their candidate for judge is the candidate most in need of such support, as he is the only one they have mentioned thus far in that connection. It is pointed out that he was appointed to the important office he now holds by governor Gillett, his boyhood friend. It was no doubt a pleasure for the governor to favor his friend, but many of the people of Amador county would have preferred to have had him appoint one of their true and tried friends.—Dispatch.

Evidently the campaign managers of the local democracy have seized control of the party organ for the time being, driven thereto by the stress of circumstances—the straightness of the party itself and the palpable lack of propelling power in the regular staff of its newspaper mouthpiece. From now on we expect to see weekly effusions of similar character from the ranks of its background managers. Taking the above as a fair sample of its censored utterances, we have no reason to complain from a republican standpoint. The article is untrue in its allegations of fact, and shows poor political diplomacy, and is in execrable taste. No effort has been made by republican managers or press to "induce democratic voters to write the name of at least one republican candidate on the democratic ballot" at the coming primary election. We defy our cotemporary to quote a single sentence in the Ledger in support of that statement. We have pointed out that a voter in registering as a party man was not thereby placed under any obligation to support all the candidates on his ticket. His freedom in the exercise of his right of suffrage is not in the least impaired under the primary law. To illustrate this point we stated that the friends of Judge Wood on the democratic side—and their name is legion—were at liberty to write his name on their primary ballot, and in the event of such votes outnumbering those cast for the regular candidate, he might thereby become the democratic as well as the republican nominee.

We venture to say, in the candid opinion of a large majority of the people of Amador county, governor Gillett, in sending a man of Judge Wood's genial personality and acknowledged ability and integrity of character as a jurist, he has thereby conferred an inestimable benefit upon this county. The pleasure of the governor in selecting his boyhood friend for this high office, finds its complete counterpart in the general acquiescence of the people in the sound judgment he displayed in making this appointment. For this act alone governor Gillett is entitled to be held in grateful remembrance by all classes throughout the county. The exigencies of the democratic party, and the personal desires of some so-called "true and tried friends" may have mapped out a different selection. Amador county to-day has no truer or more tried friend within her borders than Judge Wood. One of his first acts after coming here was to show his faith in this section as a desirable residence, and his confidence in the people, by the purchase of a home for himself and family—an example which it might not be amiss for other "true and tried friends" to follow. Our cotemporary is barking up the wrong tree if he imagines the above sort of political small talk is calculated to help the waning fortunes of his party.

Theodore Roosevelt upon his return to his native land will be greeted with a reception in New York on a scale that has rarely been equalled, and perhaps never surpassed. He has hunted much and talked much during his travels abroad. He has gained celebrity thereby, but it is questionable whether he is as much the popular idol to-day either at home or abroad as when he started on his long jaunt some fourteen months ago. But wherever he may be the ex-president will continue to be a powerful factor in American politics.

The race for the republican nomination for governor lies between Curry and Johnson. The supporters of Anderson are talking about making inroads upon the Curry ranks, but those who are best qualified to judge from contact with people in all sections of the state make light of such claims. The Curry forces are not to be stampeded. There ought to be some way found of narrowing the primary fight down to a straight-out issue between the Johnson and anti-Johnson forces,

SCIENTIFIC MISCELLANY

Reported weekly for the Ledger.

Moving Pictures for the Amateur—A Universal Clock—Abundance of Edible Fungi—Volcanoes Not Die to Steam—The Greatest Induction Coil—The "Comet" That Struck—Artificial Rubber from Peat—Piles Driven in Coal—Food Frauds.

The novel "Cinephone" of a French inventor provides an inexpensive means by which the amateur photographer can obtain moving pictures on a limited scale. A special number has a simple clockwork mechanism for automatically making the exposures, a reproducing box has a similar mechanism for making the moving pictures pass under a viewing lens, and, if desired, another apparatus can project the pictures on a screen with a lantern. The circular sensitized plates are of two kinds—one for 24 pictures in a circle near the edge, the other for 75 pictures in a spiral. A little hole at the bottom of the space for each picture receives a stop-pin of the mechanism, and as the plate turns in the camera each hole brings it to a stop long enough for an exposure, the shutter opening automatically during the momentary halt, then closing as the rotation continues. The negatives are developed in the usual way. Positives are printed on transparent disks having perforations corresponding to those of the negatives, and the moving scenes are reproduced as these positives are rotated in the viewing apparatus, momentarily stopping at each picture.

The curious suggestion that certain stars beyond our unaided vision may serve as a clock of the universe has been made by Prof. E. E. Barnard. A variable star in cluster M 5 is normally below the 14th magnitude, but brightens up a magnitude every 12 hours and a fraction, and at a certain stage of the increase is just equal to a neighboring star. The instant of equality is shown with such extreme accuracy that the variable's period has been determined within a fraction of a second. There has been no change of regularity in ten years, and this star—checked by one or two similar ones—may be used to test the constancy of motions of the earth and the solar system.

The known edible mushrooms of New York—increased by 5 in the last year—are now reported by the state botanist to number 200 species.

A new theory of volcanic eruptions has been worked out by Albert Burn, French physicist, who finds from the experiments and observations of himself and others that volcanic action depends much less than has been supposed on the sudden generation of water vapor. The effects are mostly due to gases free from steam. The lavas of different volcanoes fuse at varying temperatures from 1600 deg. to 2250 deg. F., and when any lava is melted, so rapid is the evolution of gases—chiefly chlorine, hydrochloric acid, sulphur dioxide, carbon dioxide and carbon monoxide—that the mass expands to at least twenty times its volume in the solid state. The enormous pressure produced—calculated at 175 tons per square inch at the moment of disengagement of the gases—is quite sufficient to move mountains, being equal to the weight of a column of basalt more than 60 miles high. The gases are produced by the action of hydrocarbons, nitride of silicon, chlorated silicates and silicates of iron upon each other and upon the lava, and all are dry unless they have become mixed with air. The chlorine disengaged is sufficient to account for the eruption. Geyers, aqueous fumaroles and other evidences of the presence of water are regarded as subordinate effects, and are explained by the surface and underground water encountered by the escaping volcanic products.

The induction coil—called Ruhmkorff coil from the first make of the modern form of the apparatus in 1851—receives a low tension electric current in its primary coil and by rapid automatic making and breaking of the circuit induces an alternating current of high tension in its secondary. The largest of Ruhmkorff coils—lately made by Carpentier, a Paris instrument-maker—yields a spark about 50 inches long, when operated by a current of 110 volts and 30 amperes. Its secondary circuit comprises 97½ miles of copper wire of a diameter of 1-125 of an inch; and its primary contains six layers of copper ribbon, ½ inch wide and 1-25 inch thick, in 792 turns. The soft iron core is 80 inches long, with a sectional area of 9 square inches.

Meteor Crater, Arizona, is now recognized as the scar from the impact of an iron meteorite. From the energy expended in ejecting 330 million tons of sandstone, Prof. W. F. Magie computes that the falling mass weighed between 60,000 and 15 million tons, and moved at 3 to 48 miles a second. A final estimate is that the meteorite was 400,000 tons, with a velocity of 18 to 20 miles a second.

The new synthetic rubber of Belgian chemist, claimed to have the properties of Para rubber, depends chiefly upon the conversion of peat into a glutinous hydrocarbon mass through a fermentation process. Dried peat is placed in zinc-lined fermenting chamber, for each tone is sprayed with about a ton of wire, then with six fluid ounces of the ferment present in imperfectly-formed rubber, and finally with a warm solution of one pound of sugar in five gallons of water, after which the chamber is closed and kept at a comparatively high temperature for three weeks. The peat is then found to be covered with a mouldy layer, beneath which is the hydrocarbon mass. This is collected, placed in a cylinder containing water with certain mineral salts and some of the red nitrogenous substance extracted from Congo red rubber, and the cylinder is heated by passing steam through a jacket surrounding it. On cooling the artificial rubber is found floating on the liquid. It is purified in a little alcohol, and by covering with light petroleum is so softened that it can be shaped and moulded as desired.

A foundation of wooden piles in lignite is the novel engineering feature of a new stone arch bridge over the Neisse river at Muskau, Prussia. Piles of steel or concrete were considered but rejected on account of the corrosive action to which they would be exposed. Driving wooden piles was difficult and tended to break up the lignite bed, so holes 10 or 11 inches in diameter were drilled to a depth of about 17 feet, and in them the piles were fixed by driving a foot or two further—about the extreme limit of penetration.

Food adulteration in France—estimated to yield a yearly profit of \$100,000,000—largely affects bread and flour. Bread is much adulterated with indigestible and irritating talc; flour is mixed with alum or potassium carbonate to increase the water absorbed, with zinc sulphate to keep the bread fresh, and with copper sulphate and ammonium carbonate to save yeast and make better looking bread from spoiled flour. De-natured alcohol, at an eighth of the cost of pure alcohol, is used in making cordials.

Better Photographs

When you have your "photos" taken by LOGAN you get better workmanship and more satisfaction than anywhere else. Up-to-date apparatus, the best of skill and many years of experience have given LOGAN a well deserved reputation. He is the premier photographer of Stockton. When you come to town don't fail to call at the studio—15 S. San Joaquin St. Prices always moderate—work always best.

Estate to be Settled

Carl Bartlett, the administrator of the estate of S. W. Bright, came up from Berkeley Sunday, on matters pertaining to the estate. As all the property belonging to the estate has been disposed of the affairs are in shape for final distribution and discharge. A petition to this end has been filed and will be heard shortly. Mr Bartlett left for his home on Tuesday, but expects to return when the final hearing comes up.

If you are not satisfied after using according to directions two-thirds of a bottle of Chamberlain's stomach and liver tablets, you can have your money back. The tablets cleanse and invigorate the stomach, improve the digestion, regulate the bowels. Give them a trial and get well. Sold by all dealers

Expert Optician Coming

An expert optician from the well-known Chinn-Beretta Optical Company will visit Jackson on Wednesday, June 22, remaining at Ruhser's pharmacy only that day. Persons needing spectacles or eye-glasses adjusted to their sight should not fail to call upon him on that date, as this will be the only opportunity of the kind for several months.

Services Sunday

Services will be held at St. Augustine's Episcopal church, Jackson on the 1st and 3rd Sunday of the month, at 11 a. m.; and on the 2nd and 4th Sunday at 8 p. m. At Trinity Episcopal church in Sutter Creek, the services will be held on the 1st and 3rd Sunday at 7:30 p. m., and on the 2nd and 4th Sunday at 11 a. m.

REV. J. EDWARD SHEA,
Rector.

For a mild easy action of the bowels, a single dose of Doan's Regulets is enough. Treatment cures habitual constipation. 25 cents a box. Ask your druggist for them.

DONT HIDE YOUR MONEY
The man who hides his money
because he assumes to be afraid
of banks forgets that it was the
bank that perhaps made the pros-
perity possible which gave him
his money making opportunities.
Without the bank there would be
no large commercial or business
enterprises possible, salaries and
wages would be low, and money
making impossible. It is the
bank in the exercise of its func-
tion in gathering together the
funds of a community and putting
them into active use that has
brought prosperity.
To hide money is to hinder and
hurt prosperity by restricting the
circulation of money. Bring your
money to the bank.

SUTTER CREEK

June 16.—Mrs Tolman returned to her home in San Francisco last Tuesday, after a pleasant visit here with her son George Tolman and family.

Miss Enid returned from Stockton to spend her vacation with her parents.

Mrs Charles Johnson and daughter Norine left here Saturday morning for Stockton, to visit a few days, ere to their departure for Nevada, where they will spend the summer months.

Walter Bozeman returned from Fresno last week to spend his vacation with his mother, Mrs Eli Vandament.

C. H. McKensy returned Friday evening from a brief business trip to San Francisco.

Miss Kate Sanderson of San Francisco is visiting her father and sister, John Sanderson and Miss Mayme, at the Sanderson ranch for a couple of weeks.

Mrs Clark Randolph and daughter of San Francisco, are the guests of John Lithgow and wife.

Miss Margaret Brady, a former Sutter Creek young lady, arrived here a few evenings ago from Tulare county, to spend a short vacation with old friends.

Charles Mulock, who left Sutter Creek a short time ago to reside in Stockton, has returned this last week, as engineer of the merry-go-round, and seems to be doing a thriving business.

Malson Ranch for Sale.

Ranch of 535 acres. Partly under cultivation, balance good grazing land. All under wire fence. Good 6 room dwelling, two barns, cattle corrals, and blacksmith shop. Windmill and water system. Situated between Amador City and Ione. For further particulars, inquire of Mrs Alice Patterson, Jackson. fl1-tf.

IONE AND VICINITY

June 16.—Business is lively nowadays. There are two headers running in Jackson Valley this week.

Charley Swift, a farmer living on Dry Creek, has purchased an automobile, which is the only one owned by any citizen in the vicinity of Ione.

Joe Kidd and family spent Saturday and Sunday with relatives near Camanche.

The dance at Buena Vista Saturday night, was a great success as usual.

Alma Ringer, who has been teaching school at Milton, is home for her summer vacation.

Mr and Mrs W. S. Alford went to New Hope Saturday on business. They report the grain crops very good in that section, and the farmers are preparing for the harvester.

G. L. Barker's hay press is at work on a ranch near Galt, and is headed toward Ione, as there seems to be so little hay to press in that vicinity.

Hulda Coon of Clements visited this week at the home of A. J. Bonham and family.

Isabel Campbell, our postmistress, attended the ball in Clements Friday night.

Eugene Miner had a close scare from a serious injury on Friday last. He was driving with a load of hay when the Jacob-staff broke, letting him fall in front of the wagon. The horses took fright and ran, and both wheels passed over Gene's ankle. Although there was a ton of hay on the wagon, his ankles were bruised, but no bones broken. He will soon resume his labors.

Billy Bagwell, who returned from his visit in the east last Friday, is quarantined for small-pox at his home in Ione. This is a mild case.

Mrs Charlotte E. McKee, Mrs F. A. McKee and grandchildren are, visiting the former's mother, Mrs A. D. Randlett.

AMADOR BRIEFS

June 15.—Miss Jessie Richards is visiting in Jackson.

Dr. Lynch has a set of new tires for his machine. He is going to break them in for taking a trip to Stockton.

Our little town is moving along at its regular gait. The mines are all looking prosperous, except the Keystone. We are hoping that it will soon be running again.

A. E. Martin is visiting at San Francisco.

Baseball is becoming very interesting here. We had two teams here last Sunday. The Regulars and the Scrubs crossed bats and the Regulars suffered defeat. George Nichols says he will clear up the whole county with his team, and the same umpire.

W. Truseott was summoned home from Placer county, on account of the illness of his little daughter.

J. Oliver is here from San Francisco visiting his sister, Mrs Hambley.

Mr and Mrs Hfnkson left here Saturday for Seattle, where they will visit with their relatives.

Quite a number of our young folks are in Sutter Creek this week, taking the graduation examinations of the grammar grade. Hope they are all successful.

COPPER HILL

June 14.—Mrs Frank Taylor, the superintendent's wife, made a business trip to Sacramento one day last week, returning the following day.

Mr and Mrs Al Taylor have returned, after a delightful visit of several days with Mrs Taylor's parents, Mr and Mrs French of Oleta.

Mrs McCollough from the valley visited friends here on Sunday last.

Mr and Mrs Frank Mann of Drytown, were the guests of Mr and Mrs Harper Taylor on Sunday last.

Mrs Blair French and children, visited relatives on the river for a few days last week.

Miss Gussie Thompson, formerly of Aukum, has moved to Copper Hill, where she will make her future home. She was accompanied by Louis Seeley, who returned to his home at Aukum the following day.

Moise Roose of Plymouth visited friends here on Friday last.

Mrs Joe Noe of Plymouth, accompanied by her son Carl, visited her husband, who is employed here as engineer. Carl came down to fish, but rumor says he went in the wrong direction, and failed to return with any fish.

J. E. Walton, accompanied by Dr. Norman, paid a visit to Copper Hill on Sunday last.

News was just received that Mr and Mrs Elvin Shealer were presented with a fine baby girl on Sunday last.

Mrs Harper Taylor has been on the sick list, but has entirely recovered now.

O-U-Kid, has certainly aroused the curiosity of many, about the young couple who are known so well through-

out the United States, and in her next letter we hope she will give us the names of the parties who are so popular.

"It cured me, or 'It saved the life of my child,' are the expressions you hear every day about Chamberlain's colic, cholera and diarrhoea remedy. This is true the world over where this valuable remedy has been introduced. No other medicine in use for diarrhoea or bowel complaints has received such general approval. The secret of the success of Chamberlain's colic, cholera and diarrhoea remedy is that it cures. Sold by all dealers.

PAPER GETS BAD BUMP

Continued from Page 1

impart to their own pocket books, rather than the good of the church, and as far as the shallow pated Willie was concerned, he was willing to take the risk of exposure of his contraband contract in order to vent a petty prejudice against a newspaper that stood aloof from his policy and his clique.

In all such matters of public entertainment for church or other benevolent objects, or of celebrations which depend for success upon the patronage of all classes, the Ledger has always advocated the equal rights of the two papers in this city. We have never listened to a proposition to ignore our cotemporary. Our advice has always been, "Divide your work as evenly and fairly as you can, show impartiality, and give not the slightest cause for complaint on that score." And that is the broad spirit upon which alone small communities can be prevailed upon to work harmoniously. Any departure from this well recognized rule stirs up strife and endangers success.

Now here is the gist of the defense set up by the Dispatch.

"Regarding the matter of the printing for the Episcopal entertainment, the entire part of the article in which an alleged interview between the Ledger man and Mr Dennison is described, is a most astounding perversion of facts. There was absolutely no condition imposed upon Mr Dennison to have his printing done by the Dispatch. He was free to have the work done wherever he saw fit, and in exercising his rights, which no one had authority to dispute, he came to this office with his printing. Mr Dennison never admitted to the Ledger man that he had 'made a mistake' by giving the Dispatch the printing. When Mr Dennison read the Ledger's article he became very angry. The Dispatch had done work for Mr Dennison on a previous occasion, and the work was so satisfactory that the gentleman complimented the job. What was more natural than when he again had printing to be done he should come to the Dispatch for it, where he knew he could get what he wanted and be assured it would be delivered on time.

We cannot conceive by what manner of means Mr Dennison was under the slightest obligation to the Ledger. If the Dispatch man was instrumental in having Mr Dennison come to this city, and in view of previous acquaintance and business relations between the two, would not that entitle the Dispatch to be given the preference?

Here then we have the admission that on a previous occasion, referring to a "benefit entertainment," the Ledger

was ignored; that having the work done on that occasion "satisfactorily," without kick it was perfectly natural on his second trip that he should try the same route again. The claim is set up that the Dispatch man being instrumental in getting Mr Dennison here, therefore the Dispatch was entitled to preference—meaning in this case the "whole hog"—in the printing; that he was not "under the slightest obligation to the Ledger." Here then is the dead giveaway of the whole thing. Out of this own mouth the main facts are admitted, and we might upon this showing leave the matter to the judgment of the people.

The Dispatch makes the fatal mistake that the patronage in this affair was Mr Dennison's exclusive property, the same as though the money came from his own pocket. Such was not the case. Mr Dennison and his conferees and assistants were merely the agents of the patrons of the show in the distribution of patronage and they had no right in fact or justice to regard it otherwise than a public trust to be used fairly and impartially.

Our cotemporary says that the alleged interview between the Ledger man and Dennison as given in this paper, is "an astounding perversion of facts." And he makes this statement on his own account. We beg to say that he is not competent to pass on the question; he was not present at either interview; and his impudent bald denial is on a par with his surplus of gall and deficit in common sense. Both interviews were had in the hearing of witnesses, and the substance as given in the Ledger can be substantiated. Furthermore, Dennison, after being enlightened to the true situation said he went back to "Willie dear" and gave him a section of hades for having led him into such a predicament.

Referring to the eleventh hour printing of reserved seat tickets by the Ledger to square things as far as possible, the Dispatch says:

"The order was turned over to the Ledger, not by Mr Dennison, but by W. M. Penry, Jr., editor of the Dispatch, to whom the order for the tickets had been given by Dennison the day previous. 'Sounds strange, doesn't it? But it's none the less the fact. The Dispatch man gave the order to Webb's hureling, W. Scott Thomas, on the afternoon of May 27. Thomas promised to deliver the tickets by 9 o'clock the next day to be used in the box-office plat. It may be remarked in passing that the tickets were not forthcoming when the seats were to be placed on sale at the appointed hour."

Here is a wilful misrepresentation. Dennison was sick—evidently from nervous prostration over the dilemma of this racket—and while prostrated asked Penry in the presence of Thomas to go to his suit case and get the copy for tickets, which he did and handed same to the representative of the Ledger. The Ledger had no dealings with Penry, knowing full well that he was scheming to monopolize the church benefit printing. This order was given late in the evening, after working hours, and it did not reach the job office of the Ledger until after 9 o'clock the following morning. The tickets were delivered within one hour after the knowledge reached this office. The insinuation that the Ledger is not prompt in the fulfillment of contracts is contemptible. Penry did not give the work, we would not have accepted it from him on such a plea, and furthermore he did not pay for it. He had neither part nor lot in the transaction, as far as we are con-

cerned. Again:

"Another example of the Ledger's reprehensible methods occurred when a representative of that sheet asked Mr Dennison to be allowed to publish the program of the show. Dennison thinking, of course, the Ledger wanted it for a news item, gave him a copy. Imagine his surprise and disgust when the Ledger presented him with a bill for \$2.50 for the publication of the program. The Dispatch published the program without charge. Nor have we ever charged for publishing the program for any local talent entertainment, and much less would we be inclined to charge for a church benefit show."

Here is another sample of "crookedness." The Ledger never asked permission to publish the program. The proposition came from Dennison as reparation in part for an acknowledged wrong. Think of the absurdity, that a professional showman would come to a newspaper office for free advertising, after bestowing all his pay work in another office. We don't do business that way. We did it as paid advertising, and nothing else, and we told Dennison when he paid for it that the price of \$5 would have been the same for the program alone, in the absence of the tickets. The Ledger gives reasonable local notices of entertainments where the job printing is fairly divided; we make no charge for puffs under such conditions. It is an invariable rule, however, that full rates will be demanded for space in the Ledger in all cases where the Ledger is ignored or unfairly treated in the distribution of the printing. Any one that takes us as fool enough to do it otherwise is only fooling himself.

It might be interesting to publish an itemized account of receipts and disbursements of this Penry-Dennison-

Episcopal-combine entertainment, giving the Dispatch's share in the graft and grab-all plot in the name of the church.

The Committee Speak.

Sutter Creek, June 16.
In regard to the article "A Lie Refuted" appearing in this week's Record the executive committee of Sutter Creek Fourth of July celebration is indeed extremely sorry to have innocently caused any friction between the county papers, having due respect for each and all, especially the Ledger, the oldest of all. And the Record is in error in stating so publicly that Mr Webb maliciously lied, for a committee of ladies did visit the Ledger office; also, through kindness of Mr Webb did obtain the loan of a full-sheet two-color poster, and it was in their possession for over two week. Consequently, did not maliciously lie, but on the contrary was exceedingly gracious. Neither did he seek our patronage in regard to the posters. This committee desires to be friends with all, instead of causing open hostility.

[We may add to the above that the claim of the Record that the poster referred to has been duplicated in his Record office is equally false. The Ledger poster is 28 1/2 x 44 inches in size, whereas the Record output is 24 x 36 inches, bearing out our assertion that the poster had to be whittled down to bring it within the capacity of the Dispatch-Record combine. As to the typographical quality of the work, the Record job speaks for itself—it is a disgrace to the printing craft,—Ed.]

Of Amador county. Primary election August 16, 1910.

A. W. ROBINSON
Present incumbent, announces himself a candidate for the Democratic nomination for
JUSTICE OF PEACE
Township 3 Primary election August 16, 1910.

BLOOD TELLS

Good blood tells, they say, and bad blood certainly does. Poor or disordered blood tells its own story in lowered vitality loss of energy, in skin eruptions, in rheumatic pains and in a pallid or sallow appearance of the complexion. This is the season of the year when the blood is most apt to be disordered. Take

Ruhser's Compound Extract of Sarsaparilla

It purifies and enriches the blood. It cures boils, pimples and other skin troubles. It expels rheumatic poison from the system. It builds up strength and energy.

Price, \$1 for full Pint Bottle

JACKSON CITY ITEMS

Continued from Page 1

J. F. Wilson, Dentist. Hours 9 a. m. to 5 p. m. Phone—Office, Main 75; residence, black 394; Jackson.

I am prepared to go out as nurse to sick ladies in confinement. Mrs. E. S. Pitois, No. 73 E. Court street. ml18

Matt Joy has accepted a position as night clerk at the Globe hotel.

A. Lucot has moved his family from the Vogan residence on Peek hill to the dwelling house recently vacated by F. Cassinelli, near the north Main street bridge.

The Kennedy paid a dividend this month of 30 cents per share, aggregating \$30,000.

On Thursday afternoon while Paul Davalle was cutting grass on the lawn surrounding his home, the cycle struck a rock and glanced off badly cutting the first finger on the left hand.

Heavy, impure blood makes a maddy, pimply complexion, headaches, nausea, indigestion. Thin blood makes you weak, pale, sickly. Burdock Blood Bitters makes the blood rich, red, pure—restores perfect health.

Mrs. F. Arditt, was the lucky winner in the clock contest at McGary's last week. She is quite proud over the new set of dishes which she received free.

Chamberlain's cough remedy is sold on a guarantee that if you are not satisfied after using two-thirds of a bottle according to directions, your money will be refunded. It is up to you to try. Sold by all dealers.

F. Cassinelli, formerly employed at the Jackson brewery, has moved his family to Stockton, where he has secured better employment.

Chamberlain's stomach and liver tablets will brace up the nerves, banish sick headache, prevent drowsiness and invigorate the whole system. Sold by all dealers.

Miss M. E. McCaskey, teacher of Aetna school, left this week for Lodi, where she will visit Mrs. Voorheis formerly of the National hotel, and thereafter go to Berkeley to take the summer course for teachers at the State University.

Road and state poll taxes are now due and payable to the assessor, and will be delinquent in August. Pay up and avoid the penalty.

Mr. and Mrs. Frank Mitchell residing at the Kennedy Flat, were presented with a bouncing baby girl last Wednesday. The happy father is employed at the Kennedy mine, and reports both mother and baby are doing nicely.

Don't forget the drawing at McGary's on Saturday, at 3 p. m.

The A. Van der Naillen School
of Practical Civil, Electrical, Mining Engineering
Established 1884
Occupying their own building, workshop and laboratories. Open all year. Great demand for ex-students in all lines. New students should enroll at once. Address: 11st St. and Telegraph Ave., Oakland, Cal.

Sutter Creek Loses Game

Sutter Creek's baseball team lost their game last Sunday with Angels Camp by a score of 5 to 14. The game was played on the Sutter Creek ground, and was well attended. Steel pitched for Sutter Creek and held Angels team at his mercy for the first 4 innings, but, from then on the team took a slump and the visiting team piled up run after run. Logomarsino played in old style form, and the first baseman, Noce, played a good game. Cauffman held down short stop, and filled the position with very good work.

Sutter Creek can blame her wild throws, and passed balls for a great deal of the trouble she has faced this year. Although her batting average does not run away up, she has a number of pretty good batters. Sutter Creek recently purchased new uniforms, bats and balls, involving an expense of over \$100. Liberal patronage rendered is helping them to clear the debt, and we are told they will finish the season ahead of the game financially and otherwise. Following is last Sunday's score.

placing of players, but the management seems to think different and many times, as was the case last Sunday, the captain was ordered to make changes contrary to his wishes, and as a result, the game was lost.

The Wingards came here representing a fast nine from the capital city, and played clean ball. They are selected from the employees of the Carmichael Real Estate Company of that city, and their manager, E. F. Raffetts says he certainly expects Jackson to give them a return game.

Children Cry FOR FLETCHER'S CASTORIA

Why Take Alcohol?

Are you thin, pale, easily tired, lack your usual vigor and strength? Then your digestion must be poor, your blood thin, your nerves weak. You need a tonic and alternative. You need Ayer's Sarsaparilla, the only Sarsaparilla entirely free from alcohol. We believe your doctor would endorse these statements, or we would not make them. Ask him and find out. Follow his advice. J. C. Ayer Co., Lowell, Mass.

The endorsement of your doctor will certainly greatly increase your confidence in Ayer's Pills as a family laxative. Liver pills. All vegetable. Ask your doctor about them.

MINE NEWS

ALONG LODGE

Continued from Page 1

he 3400 level—the deepest point reached—the ore body is reported to be 12 feet wide, and of fine quality. Preparations are being made to start sinking another 200 feet. This mill is running steadily to its utmost capacity of 100 stamps.

Bunker Hill

This mine declared its usual monthly dividend of 5 cents per share payable on the 15th. The 1950 level is being pushed ahead to reach the ledge. It is thought that about the middle of next month the ore-body will be reached. The end of the ore shoot in the 1750 level is not yet in sight. The extent of this shoot is remarkable both in length and width, over 800 feet long and 30 feet wide in places, all milling rock.

Central Eureka

A curious conflict has arisen in regard to the title to a portion of the mining ground claimed by this company, owing out of the developments of the west ledge in the South Eureka. Some town lots lying to the west of the patented mines of the Central Eureka were bought from the townsites holders. It appears that many years ago a mining location was filed on land embraced in several of these lots. Some work was done thereon, without important developments from a mineral standpoint. Assessment work has been kept up if not right along at any rate for a number of years by the locators and their grantees. The opening up of the west vein in the South Eureka has created an impression that this ore body runs to the west of the mineral patented land of the Central, and in this case the ground might prove of great value. So the mineral claimants of this old location have revived their claims, and a contest between the town site title and the grantees of the mining locators is not improbable.

Estray Notice

Came into my ranch at Middle Bar, one red cow, about three years old, branded MD conjoined on right hip, swallow fork in right ear. Owner can have same by proving property and paying all expenses.

BOARD OF EDUCATION.

Teachers' Examination, Etc.

Office of Superintendent of Schools of Amador County, Jackson, May 28, 1910.
To Whom It May Concern:
The Board of Education of Amador county will meet at 10 o'clock a. m., Saturday, June 11, 1910, in the office of the Superintendent of Schools, for the purpose of making out and adopting questions to be submitted to the pupils for graduation from the Grammar Schools of Amador County.
The examinations will begin at 9 o'clock a. m. on Monday, June 13, and end on Tuesday, June 15, three days being given for the examinations.
A member of the Board will conduct the examinations in Jackson, Sutter Creek, Ione, Plymouth and Volcano.
On June 16th and 17th, the Board will correct and grade the papers, and issue diplomas to the successful applicants.
On June 18th, adopt questions for applicants for teachers' certificates.
June 20th, 21st, 22d, 23d, and 24th, conduct the teachers' examinations.
June 25th, the Board will renew certificates and grant recommendations for State Educational Documents, and adopt Supplementary Library Books.
June 27th, 28th and 29th, correct and grade the teachers' examination papers, and issue certificates to the successful applicants.
June 30th, adopt Library Books, and act upon such other matters as may properly come before the Board.
W. H. GREENHALGH,
Superintendent of Schools

SUPERIOR COURT.

HON. F. V. WOOD, JUDGE

Frank Garibaldi et al vs John B Garibaldi—June 17 fixed for settlement of bill of exceptions on motion for new trial. Notice of said action to be served defendants. Thereafter the order fixing time for settlement on motion of R C Bole was vacated, and bill of exceptions returned to said R C Bole.

Central Trust Co vs W A Nevills et al—Continued until June 12.

W Dennis vs Matilda Dennis—Motion to set cause for trial and to dismiss action.

Estate of Jas H Holman—Sale of real estate confirmed.

Assessor's Notice

I would like to have those who have not turned in their assessments for the present year, to do so at once, as I am closing the assessment rolls. I will be in the office every day this month.

CLARENCE E. JARVIS.

Claims Affinity's Home

San Francisco.—Mrs Clara M. Reis, society matron, whose suit for divorce is now pending before Judge Cabamiss, filed an amended complaint in her action in which she adds to the list of her husband's property holdings.

From the evidence adduced at the trial during the last two days, Mrs Reis sets up the declaration that the residence at 1920 Vallejo street, where her spouse visited his affinity, Mrs Grace Hawkes, is community property, and was purchased by Reis out of the funds of the family and for the purpose of housing Mrs Hawkes therein.

Mrs Reis asks that she be given her half interest in this property, as well as two additional houses situated at 3028 and 3030 Fulton street, Chicago.

Further testimony in the Reis divorce case will be heard before Judge Cabamiss next week. It has already been admitted by the judge and by the attorneys for William B. Reis, the defendant, that Mrs Reis will get her divorce. The difficulty remaining to be carried settled is the amount and character of the alimony.

A Dreadful Wound

from a knife, gun, tin can, rusty nail, fireworks, or any other nature, demands prompt treatment with Bucklen's Arnica salve to prevent blood poison or gangrene. Its the quickest, surest healer for all such wounds as also for burns, boils, sores skin eruptions, eczema, chapped hands, corns or piles. 25 cents at Spagnoli's drug store.

Last Words of Different Rulers

Edward VII.—"I know this is the end. Tell the queen."
Charles V.—"Ay, Jesus."
Charles I, spoken when his head was on the block.—"Remember."
Charles II.—"Don't let poor Nellie starve." Alluding to Nell Gwynne, an actress.
Richard Coeur D'Leon.—"Youth, I forgive you." To Bernard de Goudon, whose arrow killed him.
Louis XVI.—"Frenchmen, I die guiltless of the crimes imputed to me. Pray God my blood falls not on France. If so"—And the guillotine fell.
Marie Antoinette—Farewell my children, forever. I go to your father."
Frederick the Great—We are over the hill. We shall go; go better now." This was spoken after the final fit of coughing.

Notice to Voters.

A new and complete registration of voters is required by law during the year 1910. Registration closes for the purpose of voting at the Primary Election on July 26, 1910, and for the purpose of voting at the General Election on September 23, 1910.
You may register with the County Clerk, or any of his deputies.
Dated June 8, 1910.

FROM OUR EXCHANGES

News of Interest from Near-by Counties

District attorney Thompson and Thos. O. Hardie on Sunday visited Omo and the scene of the recent murder of L. P. Coscia, the object being to perfect the chain of evidence already secured in the case. The residents of Mount Aukum district were slow to believe that any person in that community could possibly be guilty of such a cold blooded crime as the murder of the old man Coscia, but the evidence in the hands of the officers is almost conclusive.—Republican.

The Mokelumne river from the Middle Bar bridge to opposite the Queen mine, in the vicinity of Rich gulch, a distance of several miles, is said to contain a number of salmon trout and some have already been caught that weigh over four pounds. The river water is clear and cold, and the trout caught were remarkably good eating.—Citizen.

From parties here from Copperopolis this week we learn that the prospects of the big copper mine are exceedingly bright. The work of sinking from the old works to an additional depth of 20 feet has developed a vein of exceedingly rich ore. Up to the time our informant left the vein had shown a width of eight feet, with no sign of the opposite wall. The ore is said to be the richest that has ever come out of the mine. This will mean considerable to Copperopolis, and will doubtless lead to more extensive exploration. This strike is at a depth of over 1000 feet, and shows the permanent character of the mine.—Prospect.

District attorney Keith filed in the superior court this week a civil action against Adam W. Poe, as auditor and recorder, to recover for Calaveras county the sum of \$2625, alleged to have been illegally paid by him for the services of a copyist in his office, for 35 months at a salary of \$75 per month. It appears that Poe in employing this copyist acted in accordance with an act of the legislature of 1907, which amended section 190 of the county government act, providing that in counties of the 33d class, the county recorder shall be allowed a copyist at a salary of \$75 per month, virtually making an annual increase in the office of recorder of \$900. The district attorney however, contends that inasmuch as this section was created after Poe had taken the oath of office, he is debarred from its benefits by virtue of section IX of the constitution which provides that the compensation of any county, city, town or municipal officer shall not be increased after his election or during his term of office. He also claims in support of his contention, a recent decision of the supreme court in a parallel case.—Angels Record.

Molson Ranch for Sale.

Ranch of 535 acres. Partly under cultivation, balance good grazing land. All under wire fence. Good 6 room dwelling, two barns, cattle corrals, and blacksmith shop. Windmill and water system. Situated between Amador City and Ione. For further particulars, inquire of Mrs Alice Patterson, Jackson, Ill-tf.

Dewey Dry Dock Sinks at Sea.

Manila, P. I.—The dry-dock Dewey, the largest in American navy, sank in seventy feet of water here. It some unknown manner the water displacing valves of the dry dock were left open. The costly machinery of the Dewey is ruined, according to naval constructors.

The Dewey was built at Starrow's Point, Md., by the Maryland Steel Company at a cost of \$1,000,000. The drydock measured 500 feet in length and 103 feet in width and could accommodate the largest ship, including even war vessels of the "Dreadnaught" type. The hoisting machinery could lift 24,000 tons of dead weight. The Dewey was towed to the Philippines by the refrigerator ship Glacier and the supply ships Caesar and Brutus under command of captain Hawsley, now dead. Constructor Duboce and chief carpenter Cowles accompanied the expedition. In passing through the Suez canal the huge dry-dock scraped the sides of the canal and the United States was compelled to pay \$40,000 for repairs to the waterway. The Dewey was installed at Olongapo, March 1, 1906.

HOWARD IN RACE

El Dorado County Has Republican Candidate For State Senator

Judge Clarke Howard of Placerville has decided to enter the race for state senator from the tenth senatorial district, including the counties of Alpine, Amador, Calaveras, El Dorado and Mono. This district has been represented by A. Caminetti since 1906, that gentleman formerly serving a term in congress and a previous term in the state senate, also two terms as assemblyman from Amador and Calaveras counties.

Judge Howard is a native of El Dorado county, having been born here in 1859. His father was a territorial pioneer of California. Clarke took up the law, and read and familiarized himself with all the leading authorities in the office of the late Judge Ingham. He was admitted to practice the day after he was 21 years of age, and immediately took up the active practice of his profession. In 1884 he was a candidate for district attorney of El Dorado, then a very strong democratic county, and although defeated, he made an excellent showing, running some 300 votes ahead of the vote given in the county for the peerless James G. Blaine. For three years Judge Howard practiced law in Phoenix, Arizona, and during a portion of that time was assistant to the attorney general of the territory. About six years were devoted to newspaper work, and three years Judge Howard presided as superior judge in and for Alpine county. For five sessions of the legislature of California he served as one of the minute clerks of the assembly, and Judge Howard is therefore familiar with all the details of legislative life. He is a republican of the Blaine-Garfield type not tied up nor bound down by any clique or faction, and the republicans of the tenth district cannot do better than to rally in a united body to his support. Hon. W. F. Bray has been named as verification deputy of Mr Howard, and an active canvass will be made to secure the nomination at the August primary.

Judge Howard is married, and resides with his family in Placerville.—Republican.

Deafness Can not be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces. We will give One Hundred Dollars or any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free. P. J. CHENEY & CO., Toledo, O. Sold by Druggists, 75c. Hall's Family Pills are the best.

French Counts Fight a Duel.

Paris.—Count Isman De Lesseps and Count Just de Poligny fought their third duel, and this time each received a bullet wound.

At the second exchange De Lesseps' shot struck the barrel of De Poligny's pistol, and, glancing, caused a flesh wound in the latter's arm. At the same moment De Lesseps fell, shot through the thigh. He was removed to a hospital, where it was found that the ball had just missed the femoral artery. The wound is not fatal.

De Lesseps is a son of Count Ferdinand De Lesseps and an officer of a cavalry regiment. Some weeks ago he quarreled with De Poligny at the circus and blows were exchanged.

Pointers for Party Candidates

Qualification of Signers of Nomination Papers.—Signer must be enrolled on great register of 1910 and registered as affiliated with the same party (Republican or Democrat as the case may be) as the candidate whose nomination paper he signs. He must sign but one paper for each office to be voted for, but may sign one paper for every office to be voted for in his district.

Number of Signatures.—Not less than 3 per cent nor more than 10 per cent of the total vote cast for the elector who received the largest vote of his party at the preceding presidential election. Signatures must be secured in at least one fourth of the election precincts in which the candidate is to be voted for.

Verification Deputies.—Each candidate may designate, for the purpose of soliciting signatures, one or more special verification deputies, who qualify by filing with the County Clerk an affidavit setting forth such selection as deputy. The same deputy may be designated by a number of candidates for different offices in the same party.

No candidate is permitted to verify signatures to his own nomination papers.

Time of Filing Papers.—Nomination papers must be filed with the County Clerk at least 30 days prior to August 16, the date of the primary election.

Filing Fees.—Candidates for county offices are required to pay a fee of \$10 each to the County Clerk when nomination papers are filed. No fee required from candidates for township offices.

All necessary papers may be had at Ledger Office, at small cost, also full instructions.

OFFICIAL MAP OF Amador County

veys by D. C. CARLTON, showing township and school district boundaries, ownership of all lands according to assessment roll of 1904, mineral claims, canals, location of all school-houses; also a townsite map of principal towns, namely Jackson, Sutter Creek, Ione, Amador City, Drytown, Plymouth and Volcano.

Size 6 by 3 1/2 feet Price, colored & mounted \$10 Plain and unmounted - \$5 Sold only at AMADOR LEDGER OFFICE

Clergyman Seriously Ill

Word has been received here that Rev. Wm. Tuscon, the first rector of the Episcopal church of Jackson, is suffering from creeping paralysis, and totally incapacitated from mental or manual labor. He left here several years ago for British Columbia, and after continuing in the ministry, taking several changes but finally returned to the United States, residing in the eastern part of Washington state. His many friends in this county will regret to hear of his sad affliction.

NOTICE OF Primary Election

And designation of Offices for which Candidates are to be Nominated at the Primary Election to be held on TUESDAY, AUGUST 16, 1910,

Electric Bitters

Succeed when everything else fails. In nervous prostration and female weaknesses they are the supreme remedy, as thousands have testified. FOR KIDNEY, LIVER AND STOMACH TROUBLE it is the best medicine ever sold over a druggist's counter.

AT HEWITT'S BAZAR

Special SALE now on of Thanksgiving Necessities, Dolls, China-ware, Toys, etc. etc. We have the largest and most varied line of TOYS in Central California. Stockton's Greatest Bazar.

The Fountain Head of Life Is The Stomach

A man who has a weak and impaired stomach and who does not properly digest his food will soon find that his blood has become weak and impoverished, and that his whole body is improperly and insufficiently nourished.

DR. PIERCE'S GOLDEN MEDICAL DISCOVERY makes the stomach strong, promotes the flow of digestive juices, restores the lost appetite, makes assimilation perfect, invigorates the liver and purifies and enriches the blood. It is the great blood-maker, flesh-builder and restorative nerve tonic. It makes men strong in body, active in mind and cool in judgement.

This "Discovery" is a pure, glyceric extract of American medical roots, absolutely free from alcohol and all injurious, habit-forming drugs. All its ingredients are printed on its wrappers. It has no relationship with secret nostrums. Its every ingredient is endorsed by the leaders in all the schools of medicine. Don't accept a secret nostrum as a substitute for this time-proven remedy of known composition. Ask your neighbors. They must know of many cures made by it during past 40 years, right in your own neighborhood. World's Dispensary Medical Association, Dr. R. V. Pierce, Pres., Buffalo, N. Y.

DRIFTED SNOW FLOUR

It strengthens the system and builds it up So when you breakfast, dine or sup, Be sure the bread that you do eat Is made from purest, best of wheat.

DRIFTED SNOW FLOUR

ELECTRIC POWER

Generated by the natural fall of a great river, offers the safest and best investment of the present day. AN INTEREST in the Sacramento River Power Company (incorporated) which owns and controls one of the greatest sources of water power in the West, at Kennett, Shasta County, California, means an income to you for life, and to your heirs after you. It is a mine of wealth that can never be worked out.

Situated at the head of the great Sacramento Valley, with electric roads projected in every direction and being rapidly built, only 275 miles from San Francisco and Oakland, and 185 miles from Sacramento, to which points electric power is now being transmitted, the market is practically unlimited.

Stock is now selling at \$5.00 per share payable in five monthly instalments if desired, or 5 per cent discount allowed for cash. Only 10,000 shares more are to be sold. Balance of money required for installation of plant is raised by sale of bonds.

By investing now you get a large interest at small cost; and every share you buy will pay 50 per cent annual dividends on its present price when plant is completed. This will be demonstrated to you if you doubt it.

No order accepted for less than 10 shares. Remit by check, draft or money order. If you desire further information, cut out the attached coupon fill it out and mail to us. This will involve no obligation to buy stock, but will bring you full particulars.

500,000 Men

Hurt or Killed.

St. Louis.—The National Electric
Light Association held its twenty-fifth
annual convention and reported astound-
ing figures in death list. The delegates
represent an investment of \$6,000,000-
000.

The men assembled are seriously to
take up the problem of the protection of
the injured employee. The National
Electric Light Association reports that
500,000 industrial workers are killed or
physically incapacitated every year in
the United States; that the average
wage-earning capacity of this half mil-
lion of man is \$500, and that the actual
loss in earnings and productive power
through these accidents amounts in the
United States alone to \$250,000,000.

Kept the King at Home

"For the past year we have kept the
king of all laxatives—Dr. King's New
Life Pills—in our home and they have
proved a blessing to all our family,"
writes Paul Mathulka, of Buafflo, N. Y.
Easy, but sure remedy for all stomach,
liver and kindred troubles. Only 25
cents at Spagnoli's drug store.

Another Frenchman
Flies Over Channel

Dover.—Count de Lesseps, French
aviator, crossed above the English
channel in his aeroplane. The aviator
landed near Dover, duplicating the feat
of his countryman, Bleriot. Count de
Lesseps started from Calais under favor-
able weather conditions. He made a
good start and nothing prevented a suc-
cessful trip.

Tries to Kill King
Of Spain: It Fails

Madrid.—Bomb outrages at Barcelona
Seville and Madrid in which the life of
King Alfonso was endangered caused
the police to begin campaign against
certain organizations. At Barcelona and
Seville a man named Callemayer
dropped a bomb near the place where
the king and queen of Spain were to
drive on the king's return from Eng-
land. The bomb exploded and wounded
Callemayer. The police started in pur-
suit of the man who seeing that he
would be captured, killed himself with
a revolver. A report was circulated by
the authorities that Callemayer had
attempted to dynamite a monument
erected to the memory of the victims of
the bomb explosion of 1906, but later it
was admitted that Callemayer's act was
not one of vandalism, but was the mis-
carriage of an anarchistic plot for a con-
certed uprising.

Want Bigamist Ashes?

Washington.—The ashes of Sidney
Lascelles, alias "Lord Beresford,"
whose body was cremated here remain
unclaimed at the crematory, as did his
body after death for many years at Ashe-
ville, N. C.

The undertaker who cremated the
body said nobody had asked for the
ashes, and he did not know who would
or when, that he had been paid for the
work and would keep the dust in a
metallic case until some one called for
it.

As to who gave him the order to cre-
mate the body of the alleged bigamist
and swindler, the undertaker had noth-
ing to say.

Must Pay \$3,000

For Month Board

Weaverville.—Charles Heath will
have to pay Antone Cacon \$3,000 for
one month's board. Cacon stakes
Heath to prospect on Mule Creek, near
Minersville, the stake consisting of a
month's board for a half interest in all
that he should find. Heath struck a
pocket from which he panned \$3,000 in
six days and there is more in sight. It
is all coarse gold. No quartz has been
encountered so far, though Heath
claims that he has found a ledge a foot
wide and traceable for a mile. Heath
was here to record four claims. In the
early days all the mining ground in the
region of Minersville was located, with
the exception of the area that Heath
has staked out. Nobody thought that
the Mule Creek district amounted to
anything. All the rest of the country
round about was patented years ago. So
there is no rush to the Mule Creek dis-
trict. A rush has already paid Cacon
\$3,000 for his month's board, and Cacon
in addition has a half interest in all the
claims located.

Operation a Success

Dr. Endicott performed an operation
on Jack King, foreman on the Amador
Central R. R. Tuesday morning at the
county hospital. King suffered from a
rupture that caused him considerable
trouble. The patient is reported to be
on a fair way to a hasty recovery.

Anarchist Confesses:

Implicates 1,148

Libson.—The government is awaiting
the completion of the statement made by
an Anarchist named Ramieres before
taking action against those named as the
conspirators in the assassination of
King Carlos and Crown Prince Luis in
1908. Ramieres escaped to Brazil fol-
lowing the assassination, but was re-
cently arrested and brought here. Sub-
sequently he made a confession, and
gave to the police the names of 1,148
people who he said shared in the con-
spiracy.

Woman's Exchange

The Woman's Exchange will be as
usual on Saturday afternoon, and will be
in Geo. W. Brown's office on Main
street. Some members of the ladies
aid will be in charge.

A Woman's Great Idea

is how to make herself attractive. But,
without health, it is hard for her to be
lovely in face, form or temper. A
weak sickly woman will be nervous and
irritable. Constipation and Kidney
poisons show in pimples, blotches, skin
eruptions and a wretched complexion.
But Electric Bitters always prove a
godsend to women who want health,
beauty and friends. They regulate
stomach, liver and kidneys, purify the
blood; give strong nerves, bright eyes,
pure breath smooth, velvety skin, lovely
complexion, good health. Try them.
50 cents at Spagnoli's drug store.

NO REASON FOR IT

When Jackson Citizens Show
the Certain Way Out

There can be no just reason why
any reader of this will continue to
suffer the tortures of an aching back,
the annoyance of urinary disorders, the
dangers of diabetes of any kidney ills
when relief is so near at hand and the
most positive pr of given that they can
be cured. Read what a Jackson citizen
says:

Mrs Thomas Coombs, 173 Main
street, Jackson, Cal., says: "Last
summer I had a great deal of trouble
from my back and kidneys and nothing
helped me until I used Doan's Kidney
Pills. My back ached constantly and I
always felt tired and worn out. There
were puffy spots beneath my eyes and
swelling was noticeable in other parts
of my body. I had taken Doan's Kid-
ney pills while living in Central City
three years previous and remembering
how beneficial they had been, I again
procured a supply. In a short time they
cove away the dull, heavy ache in my
back and restored my kidneys to a nor-
mal condition. I cannot speak too high-
ly in praise of Doan's Kidney Pills."

For sale by all dealers. Price 50
cents. Foster-Milburn Co., Buffalo,
New York, sole agents for the United
States.

Remember the name—Doan's—and
take no other.

Goes To Nevada on Business

Jas Jay Wright left the latter part of
last week for Luning, Nevada, where
his father has charge of the mines of
the Del Monte Goldfield Company for
which company Wright is secretary.
He expects to be away about a month.

BY SPECIAL ARRANGEMENT WITH

THE SAN FRANCISCO
BULLETIN

San Francisco's Leading Daily, the

AMADOR LEDGER

Is enabled to offer old and new subscribers

Amador Ledger - Weekly, \$2
per year
The Bulletin - - Daily, \$3
per year } \$3.00

Certificate of Redemption—Mrs H M Dickerman jr., house and lot on Isminger ground, 3 acres in 19-17-11, taxes of 1908, \$6.10.

Letter Urging Bounty

Jackson Cal., June 14th, 1910.
Editor Amador Ledger.

Dear Sir:—I wish through the columns of your paper, to call the attention of the public to the fact, that the wisdom of placing a bounty on skunks, and increasing the bounty on blue jays, is beginning to make itself manifest.

In my trips around the country, in the usual haunts of the quail, I have noted a great increase in the number of flocks of the young.

There is also a marked increase in the young of insect destroying birds.

In view of the fact that the demand on the treasury must, in the nature of things become less and less, I for one am in favor of continuing the new ordinance for a time at least, and I believe I voice the sentiments of all my neighbors.

Respectfully L. S. Molino.

BOOSTING CITY

Ledger Delights to Publish Letter of Praise

JACKSON BREWERY.
Jack asked me to order him a few cases of Jackson beer for the picnic, which we are planning, and so I visited the Jackson brewery, where the beverage is made, and gave my order. I really wanted to see the plant. I heard a great deal about manufactured ice, and the brewery makes their own ice, many hundred tons per week. This was all very interesting to me, and surely is a valuable plant for a town in a climate where the temperature runs up as it does here.

ACME CANDY STORE.

I also gave the Acme candy store a visit. Jos Datson, the proprietor, helped me to all the sample candies I could eat, and I ordered nearly every kind in the place. They all tasted so good, each kind seemed the best I gave a large order for cream as his ice cream cannot be beaten, and I feel sure I'll please all who attend the picnic.

AMADOR BAKERY.

I ordered a special lot of rolls and bread from the Amador bakery. Our order, was so well placed last year that we decided Mr Dal Po to would always be remembered when we wished good bread. They bake it fresh every night, and it is tasty enough for a queen.

MEN'S TAILORING AGENT.

Jack asked me to go out to Robert Mounter's home and get the new suit which he ordered from Mr Mounter. I was shown the garment before it was packed for me, and for style and pattern they cannot be beaten. Jack's last suit fit him perfectly, and he had no hesitancy when he gave the last order, as to the fitting end of it, for he knew that end of it would be well taken care of.

AT PARTICELLI BROTHERS.

I determined to have our grave lot all fixed up the same as those surrounding ours, and went at once, to Particelli brothers marble and granite works and asked the price of a curb of granite with cover stones to completely surround the plot. Of course I was never so surprised when he showed me the kind of work he would give and the prices he quoted me for it. I told him to go right ahead, and do the work as quick as he could, for I felt dreadfully ashamed of the place as it has been left so.

I will send you another letter next week with best regards,

Hilda.

Boost Coal Lands

W. E. Price and Ezra Fowler, agents for the Western Consolidated Coal Gas and Electric Company, were in Jackson Wednesday endeavoring to float bonds of that corporation to raise funds to develop the vast holdings of coal land in Monterey county. The company is said to hold many thousands of acres, of proven coal land, adjoining the well known stone Canyon claims.

More Candidates

S. N. Dal Po to is out for the democratic nomination for constable in township one, against A. Laverone, the present incumbent. His card appears elsewhere in this issue.

Fred Lemoin announces in this issue that he is a candidate for the republican nomination for county treasurer. He was here from lone last Saturday, accompanied by Mrs Lemoin, and says he has all along contemplated running for this office. He is at present engaged at the Preston school of Industry. Prior to taking a position, he was superintendent of the county hospital. It is conceded that he filled this position in a more satisfactory manner than it was ever filled before or since. He is a strong candidate for any county office. He has no opponent for treasurer in his own party, and will undoubtedly be nominated, and we believe elected. He is well known in every part of the county, and is deservedly popular.

Unclaimed Letters.

Letters remaining unclaimed in the Jackson, Cal. post office for the week ending June 10th:

Ambrogio Alberto, Oalente Antonetti, (2), Jim Dickson, Mitchel Cupich, Henry Doe Donovan, John Doe Donovan, Catharine Donovan, May Doe Donovan, Peter Doe Donovan, Mary Doe Donovan, Kate Doe Donovan, Cesario Terandez, R. A. Elwood (2), Mrs Thresa Cotelli, A. Joseph, C. E. Hankel, Anto Knezevich, (2), L. G. L. Stradiv, Annos Vanness, Dora McMahon, (package), Rev. R. C. Clecklen (book), Jacob Maier.
